## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, drawn to a device for surface-treating, coating or producing construction elements in a continuous process and an apparatus for manufacturing a device, classified in class 52, subclass 506.11.
- II. Claims 12-14, drawn to a method of manufacturing a device for surface-treating, coating or producing construction elements in a continuous process, classified in class 264.

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
